? Argentina is at a crossroads in its #energytransition. With aging infrastructure and frequent power disruptions, the need for reliable and efficient energy solutions is more pressing than ever.

? What an incredible first day at Expo Eficiencia Energética 2024! ? #ATESS is excited to showcase our innovative #energysolutions for Argentina's growing energy needs.

A Chinese solar specialist has brought its power systems to ...

Here are the specific configurations: 1 Catua: Installed with a 330 kWp PV system, paired with two ATESS HPS120 hybrid inverters and an 819.2 kWh battery system. 1 El Toro: ...

In Catua, for instance, a 330 kWp photovoltaic system now hums quietly, its energy managed by two ATESS HPS120 hybrid inverters and stored in a robust 819.2 kWh battery ...

El Toro: Equipped with a 252 kWp PV system, along with two ATESS HPS100 hybrid inverters and a 778 kWh battery system. San Juan de Quillques: Fitted with a 138 kWp ...

At Expo Eficiencia Energética 2024, discover how #ATESS can help transform this challenge into an opportunity. Our cutting-edge C&I energy storage solutions, like the HPS30-150 ...

In Catua, for instance, a 330 kWp photovoltaic system now hums quietly, its energy managed by two ATESS HPS120 hybrid inverters ...

Argentina is rich in wind, solar and other new energy resources. ATESS solutions can not only serve solar systems, but can also integrate other energy sources and provide energy storage ...

Expert in solar energy storage, ATESS offers energy storage solutions & EV charger solutions and delivers clean power to more than 85 countries, with 13 offices and warehouses worldwide.

"Thanks to solar energy stored in lithium-ion batteries, these municipalities have uninterrupted electricity 24 hours a day, 7 days a week, 365 days a year," the ATESS Power, ...
