Who has bid on Malaysia's first large-scale grid-connected energy storage project?

The first large-scale grid-connected energy storage project in Malaysia has attracted bids from over 20 companies, including Tenaga Nasional Berhad. (Image: TNB)

Is Malaysia ready for energy storage?

(Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. The country's first four large-scale grid-connected storage projects have attracted significant interest, with more than 20 companies submitting over 30 proposals.

Who are the bidders for Malaysia's first large-scale battery system?

Bidders include established energy players as well as newcomers from the infrastructure and property development sectors. In 2024, Malaysia launched its first large-scale storage initiative, known as MyBeST, to build four grid-connected battery systems of 100MW/400MWh each.

What is driving demand for battery storage systems in Malaysia?

The growth of solar and other intermittent renewables is driving demand for battery storage systems. (Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage.

Battery Energy Storage System (BESS) Competitive Bidding for Battery Energy Storage System (BESS) Notice - Request for Qualification (RFQ) for the 400MW/1,600MWh BESS in ...

Despite its promising growth prospects, the Malaysia Industrial and Commercial Energy Storage System market faces several challenges. One of the major obstacles is the high initial cost of ...

The bidding round opened in May and closed in July, with winning projects expected to come online by 2027.
