Will BSES Rajdhani install Bess in South Delhi?

The BESS is being installed at BSES Rajdhani's Kilokari substation in South Delhi. It will provide an alternative power source during unexpected outages, as per a Times of India report. The Delhi Electricity Regulatory Commission (DERC) has approved the project, which is expected to be operational within 10-12 months.

What is BSES 'Bess' project?

This initiative, the largest in South Asia, is set to transform the capital's power landscape. The BESS is being installed at BSES Rajdhani's Kilokari substation in South Delhi. It will provide an alternative power source during unexpected outages, as per a Times of India report.

Which energy storage solutions provider has commissioned BSES Rajdhani kilokari substation?

AmpereHour Energy, a full-stack energy storage solutions provider, in consortium with Indigrid, has commissioned BSES Rajdhani Power Ltd's (BRPL) 20 MW/40 MWh battery energy storage system (BESS) project at the BSES Rajdhani Kilokari Substation in Delhi.

How does a Bess system work?

An energy management specialist specified that the system will utilise surplus or cheaper energy during off-peak hours to charge the BESS, which will then be provided during peak energy demand hours. The intention is to minimise high-cost market purchases during peak demand periods.
