---

Chinese company Power Construction Corporation of China (PowerChina) has completed the Cirata floating photovoltaic power plant in Indonesia, marking the commissioning of the largest ...

In West Java, a province just east of Jakarta, Indonesia, a sprawling industrial park is rising. Backed by Chinese cement giant ...

The Cirata Floating Solar Power Plant, located in West Java, is one of the largest solar projects in Indonesia and Southeast Asia. With an installed capacity of 145 MW, it began ...

The facility, developed in partnership with PLN and Masdar, is the region's largest floating solar power plant and began supplying power ...

In the last 18 months, at least four China-linked solar projects have started operation in Indonesia and Laos, with two more to come.

The project will include a 60-MW floating solar farm, a 150-kV booster station, an 8.5-km 150-kV double-circuit transmission line, and a 150-kV switching station. Once ...

In West Java, Indonesia, the Cirata Reservoir is home to a groundbreaking initiative in renewable energy, the Cirata Floating Photovoltaics (FPV) Project, developed by ...

Located on the Cirata Reservoir in West Java province, about 130 kilometers from the capital Jakarta, the Cirata Floating PV Power Plant, with an installed capacity of 145MW, is expected ...

The facility, developed in partnership with PLN and Masdar, is the region's largest floating solar power plant and began supplying power to the grid in November 2023.
