Where to buy yarn in Gothenburg?

Although temporarily closed during my visit, Sonja Yarn is the most warmly-reviewed yarn shop in Gothenburg simply because of the knowledge and helpfulness of the staff. Pretty much anything you need yarn-related. Both a physical and online store with a strong range of yarns - I counted over 15 brands in stock at any one time.

What is textured glass fibre yarn?

A textured glass fibre yarn can consist of one or more combined filaments. Textured yarn is a fiberglass thread or yarn treated with under pressure air stream that pushes air between fibers of the thread and makes it bulky. Textured yarn is made bulky with the help of air under pressure.

What are glass fibre yarns made of?

Glass fibre yarns are made of E-glass with a thermal resistance of 600°C and HR-glass with a thermal resistance of 800°C, whereas plied glass fibre yarns are made of both E-glass with a thermal resistance of 600°C and SiO₂-glass with a thermal resistance of 1000°C. Each glass type has its own properties, hence also application areas.

What are glass fiber yarns used for?

Our glass fiber yarns are used for reinforcing the cables- HEC-Holland has a various types of glass yarns for each application depending on the needs from our customers. We have following versions to meet each individual cable requirements. Our uncoated glass fiber yarns have following strong points:

For a recent trip to Göteborg (as it's called in Swedish), I did some research into the best yarn stores in town. I had a particular Norwegian yarn brand in mind, but what I saw ...

Our ISO 9001 certified yarns are used in the field of heat protection and insulation fabrics, for the cable
